VENTURA COUNTY: 412 Calle San Pablo, Suite 200, Camarillo

Please visit [MeatheadMovers.com](http://MeatheadMovers.com) and click "Contact Us" for maps to either location.

**Why:** This gives the public the opportunity to donate items that will go directly to those who need it. According to those organizing the disaster relief efforts, sending bulk donations of brand new goods is the most efficient way to provide and process supplies to help those in need. Because we know so many in the community are longing to help in any way they can, we are offering to provide the bulk transport using Meathead Mover's fleet of moving trucks to ease the burden on those facilitating the emergency care facilities.

Thank you to all who help me create awareness on how we as a community can help the victims of the fire.
